

Edinburgh Postnatal Depression Scale¹ (EPDS)

Name: _____

Address: _____

Your Date of Birth: _____

Baby's Date of Birth: _____

Phone: _____

As you are pregnant or have recently had a baby, we would like to know how you are feeling. Please check the answer that comes closest to how you have felt **IN THE PAST 7 DAYS**, not just how you feel today.

Here is an example, already completed.

I have felt happy:

- Yes, all the time
 Yes, most of the time This would mean: "I have felt happy most of the time" during the past week.
 No, not very often Please complete the other questions in the same way.
 No, not at all

In the past 7 days:

1. I have been able to laugh and see the funny side of things As much as I always could
 Not quite so much now
 Definitely not so much now
 Not at all
2. I have looked forward with enjoyment to things As much as I ever did
 Rather less than I used to
 Definitely less than I used to
 Hardly at all
- *3. I have blamed myself unnecessarily when things went wrong Yes, most of the time
 Yes, some of the time
 Not very often
 No, never
4. I have been anxious or worried for no good reason No, not at all
 Hardly ever
 Yes, sometimes
 Yes, very often
- *5. I have felt scared or panicky for no very good reason Yes, quite a lot
 Yes, sometimes
 No, not much
 No, not at all
- *6. Things have been getting on top of me Yes, most of the time I haven't been able to cope at all
 Yes, sometimes I haven't been coping as well as usual
 No, most of the time I have coped quite well
 No, I have been coping as well as ever
- *7. I have been so unhappy that I have had difficulty sleeping Yes, most of the time
 Yes, sometimes
 Not very often
 No, not at all
- *8. I have felt sad or miserable Yes, most of the time
 Yes, quite often
 Not very often
 No, not at all
- *9. I have been so unhappy that I have been crying Yes, most of the time
 Yes, quite often
 Only occasionally
 No, never
- *10. The thought of harming myself has occurred to me Yes, quite often
 Sometimes
 Hardly ever
 Never

Edinburgh Postnatal Depression Scale¹ (EPDS)

Postpartum depression is the most common complication of childbearing.² The 10-question Edinburgh Postnatal Depression Scale (EPDS) is a valuable and efficient way of identifying patients at risk for “perinatal” depression. The EPDS is easy to administer and has proven to be an effective screening tool.

Mothers who score above 13 are likely to be suffering from a depressive illness of varying severity. The EPDS score should not override clinical judgment. A careful clinical assessment should be carried out to confirm the diagnosis. The scale indicates how the mother has felt **during the previous week**. In doubtful cases it may be useful to repeat the tool after 2 weeks. The scale will not detect mothers with anxiety neuroses, phobias or personality disorders.

Women with postpartum depression need not feel alone. They may find useful information on the web sites of the National Women’s Health Information Center <www.4women.gov> and from groups such as Postpartum Support International <www.chss.iup.edu/postpartum> and Depression after Delivery <www.depressionafterdelivery.com>.

SCORING

QUESTIONS 1, 2, & 4 (without an *)

Are scored 0, 1, 2 or 3 with top box scored as 0 and the bottom box scored as 3.

QUESTIONS 3, 5-10 (marked with an *)

Are reverse scored, with the top box scored as a 3 and the bottom box scored as 0.

Maximum score: 30

Possible Depression: 10 or greater

Always look at item 10 (suicidal thoughts)

Users may reproduce the scale without further permission, providing they respect copyright by quoting the names of the authors, the title, and the source of the paper in all reproduced copies.

Instructions for using the Edinburgh Postnatal Depression Scale:

1. The mother is asked to check the response that comes closest to how she has been feeling in the previous 7 days.
2. All the items must be completed.
3. Care should be taken to avoid the possibility of the mother discussing her answers with others. (Answers come from the mother or pregnant woman.)
4. The mother should complete the scale herself, unless she has limited English or has difficulty with reading.

Escala Edinburgh para la Depresión Postnatal (Spanish Version)

Nombre de participante: _____

Número de identificación de participante: _____

Fecha: _____

Como usted está embarazada o hace poco que tuvo un bebé, nos gustaría saber como se siente actualmente. Por favor MARQUE (✓) la respuesta que más se acerca a como se ha sentido durante LOS ÚLTIMOS 7 DÍAS y no sólo como se ha sentido hoy.

A continuación se muestra un ejemplo completado:

Me he sentido feliz:

- | | |
|-------------------------------|-------|
| Sí, todo el tiempo | ___ 0 |
| Sí, la mayor parte del tiempo | ✓ 1 |
| No, no muy a menudo | ___ 2 |
| No, en absoluto | ___ 3 |

Esto significa: "Me he sentido feliz la mayor parte del tiempo" durante la última semana. Por favor complete las otras preguntas de la misma manera.

1. He podido reír y ver el lado bueno de las cosas:

- | | |
|--------------------------------------|-------|
| Tanto como siempre he podido hacerlo | ___ 0 |
| No tanto ahora | ___ 1 |
| Sin duda, mucho menos ahora | ___ 2 |
| No, en absoluto | ___ 3 |

2. He mirado al futuro con placer para hacer cosas:

- | | |
|---|-------|
| Tanto como siempre | ___ 0 |
| Algo menos de lo que solía hacerlo | ___ 1 |
| Definitivamente menos de lo que solía hacerlo | ___ 2 |
| Prácticamente nunca | ___ 3 |

3. Me he culpado sin necesidad cuando las cosas

- marchaban mal:
- | | |
|-------------------|-------|
| Sí, casi siempre | ___ 3 |
| Sí, algunas veces | ___ 2 |
| No muy a menudo | ___ 1 |
| No, nunca | ___ 0 |

4. He estado ansiosa y preocupada sin motivo alguno:

- | | |
|------------------|-------|
| No, en absoluto | ___ 0 |
| Casi nada | ___ 1 |
| Sí, a veces | ___ 2 |
| Sí, muy a menudo | ___ 3 |

5. He sentido miedo o pánico sin motivo alguno:

- | | |
|-----------------|-------|
| Sí, bastante | ___ 3 |
| Sí, a veces | ___ 2 |
| No, no mucho | ___ 1 |
| No, en absoluto | ___ 0 |

6. Las cosas me oprimen o agobian:
Sí, la mayor parte del tiempo no he podido sobrellevarlas ___ 3
Sí, a veces no he podido sobrellevarlas de la manera ___ 2
No, la mayoría de las veces he podido sobrellevarlas bastante bien ___ 1
No, he podido sobrellevarlas tan bien como lo hecho siempre ___ 0
7. Me he sentido tan infeliz, que he tenido dificultad para dormir:
Sí, casi siempre ___ 3
Sí, a veces ___ 2
No muy a menudo ___ 1
No, en absoluto ___ 0
8. Me he sentido triste y desgraciada:
Sí, casi siempre ___ 3
Sí, bastante a menudo ___ 2
No muy a menudo ___ 1
No, en absoluto ___ 0
9. Me he sentido tan infeliz que he estado llorando:
Sí, casi siempre ___ 3
Sí, bastante a menudo ___ 2
Ocasionalmente ___ 1
No, nunca ___ 0
10. He pensado en hacerme daño:
Sí, bastante a menudo ___ 3
A veces ___ 2
Casi nunca ___ 1
No, nunca ___ 0

Edinburgh Postnatal Depression Scale (EPDS) Scoring & Other Information

ABOUT THE EPDS

Response categories are scored 0, 1, 2 and 3 according to increased severity of the symptom. Items 3, 5-10 are reverse scored (i.e., 3, 2, 1, and 0). The total score is calculated by adding together the scores for each of the ten items. Users may reproduce the scale without further permission providing they respect copyright (which remains with the *British Journal of Psychiatry*) quoting the names of the authors, the title and the source of the paper in all reproduced copies.

The Edinburgh Postnatal Depression Scale (EPDS) was developed to assist primary care health professionals in detecting mothers suffering from postpartum depression (PPD); a distressing disorder more prolonged than the "blues" (which occur in the first week after delivery), but less severe than puerperal psychosis.

Previous studies have shown that PPD affects at least 10 percent of women and that many depressed mothers remain untreated. These mothers may cope with their baby and with household tasks, but their enjoyment of life is seriously affected and it is possible that there are long term effects on the family.

The EPDS was developed at health centers in Livingston and Edinburgh. It consists of 10 short statements. The mother underlines which of the four possible responses is closest to how she has been

feeling during the past week. Most mothers complete the scale without difficulty in less than five minutes.

The validation study showed that mothers who scored above a threshold 12/13 were likely to be suffering from a depressive illness of varying severity. Nevertheless, the EPDS score should not override clinical judgement. A careful clinical assessment should be carried out to confirm the diagnosis. The scale indicates how the mother felt during the previous week, and in doubtful cases it may be usefully repeated after two weeks. The scale will not detect mothers with anxiety neuroses, phobias or personality disorders.

INSTRUCTIONS FOR USERS

1. The mother is asked to underline the response that comes closest to how she has felt during the previous seven days.
2. All 10 items must be completed.
3. Care should be taken to avoid the possibility of the mother discussing her answers with others.
4. The mother should complete the scale herself, unless she has limited English or has difficulty with reading.
5. The EPDS may be used at six to eight weeks to screen postnatal women or during pregnancy. The child health clinic, postpartum check-up or a home visit may provide suitable opportunities for its completion.
